Projects

- **Shopping website :**
Built a responsive shopping website using React.js. Integrated with an e-commerce API to display product information, categories, and prices. Designed intuitive, user-friendly interfaces using React components and CSS for an optimized shopping experience. Added essential features like product search, filters, and shopping cart functionality, along with user account management and favorites lists. Optimized the website for fast loading and smooth performance, ensuring a seamless experience on both desktop and mobile devices.
- **Education :**
Developed a responsive education website using HTML, CSS, and Bootstrap. Created a clean and professional design with easy navigation. Used Bootstrap components for consistent layout and styling across all devices. Implemented sections for courses, instructors, and contact information.
